The Leader in Insulated Removable Covers and Conventional Insulation Services

CUSTOMIZED INSULATION SOLUTIONS TO HELP YOU MANAGE YOUR BUSINESS

RSL Mechanical Services (RSL) specializes in manufacturing and installing insulated removable covers and delivering conventional insulation services including certified asbestos abatement services to help the energy industry maximize production, mitigate risk and avoid costly outages. Our experts have more than 25 years experience with a broad range of thermal and acoustic applications and can manufacture customized insulated removable covers for virtually any piping system, turbines, exchangers and valves. All RSL insulated removable covers are custom measured, fabricated off-site and installed to our clients' specifications. RSL combines highly skilled technicians, proven manufacturing processes and specialized equipment to consistently deliver safe and effective insulated removable covers for refineries, power plants, petrochemical plants, pulp and paper plants and mines throughout North America.

RSL is a leading provider of insulated removable covers and conventional insulation services to the oil sands market in northern Alberta. RSL has a large presence in Fort McMurray, AB and a successful history of providing services to support the activities of oil sands owners and other companies operating in one of the most unique energy markets in the world.

SAFETY AND TRAINING

Safety is our highest core value —RSL follows a philosophy that gets “Everyone Home Safe Everyday” and we conduct daily and weekly site walk thrus to ensure this goal is achieved. Our employee training and development program is essential to provide our clients with world class insulated removable covers and insulation services. Our technicians complete a range of core competency modules and training for specialized equipment. Further, our people undergo extensive internal training before working at a client's facility. Other training includes interactive computer based training, First Aid, CPR and defibrillator training as well as client, industry and legislative requirements.

MANUFACTURING AND FABRICATION FACILITIES

To service the needs of our clients RSL has more than 10,000 sq feet of shop space in Fort McMurray, Alberta. These facilities include more than 5,000 square feet of space designed for manufacturing insulated removable blankets and over 5,000 square feet of space for fabrication, welding and piping work. RSL also has mobile service trucks to service the needs of our clients directly on their sites. These facilities and mobile services combined with skilled labour gives RSL the ability to service our clients on a 24/7 basis.

SKILLED PEOPLE

RSL is comprised of numerous specialists including skilled seamstresses for producing insulated removable covers as well as certified trades persons including but not limited to insulators, pipefitters, boilermakers, welders, riggers, millrights and other technicians. Our specialists work together to provide our clients with customized insulated removable covers and insulation services.

RSL INSULATED REMOVABLE COVERS

ADVANTAGES OF RSL INSULATED REMOVABLE COVERS:

- Removable covers can be reused resulting in significant cost savings
- Professional measurements and customized cover designs
- Use of premium materials to fabricate covers for the hottest applications guaranteed to fit every time after designs
- All pricing includes certified installation
- Experience with all types of applications in the petro-chemical, commercial and industrial industries.
- Safe, fast and reliable service
- Experienced technicians

RSL INSULATED REMOVABLE COVERS ARE DESIGNED FOR A VARIETY OF USES INCLUDING:

- Flanged connections for piping systems
- Turbines
- Exchangers
- Valves
- Acoustic applications for noise reduction
- Personal protection
- Hot applications (up to 2000 F)
- Cold applications for refrigeration
- Chemical resistant materials
- Mufflers and exhaust systems
- Fire and heat resistant pillows
- Kneeling pads for welding or similar applications

RSL ALSO MANUFACTURES NON-INSULATED REMOVABLE COVERS TO PROTECT FROM:

- Dirt
- Salt water
- Other environmental substances

PROVEN RESULTS

RSL is a major supplier of insulated removable covers and conventional insulation services for major energy companies including Syncrude Canada and Suncor Energy.
